*It’s important for students to have one long school box instead of multiple smaller ones. This is very helpful as they develop organization skills. Please let us know if you have trouble finding one. 😊

*Feel free to use any school supplies leftover from last year if you’d like. 👍

Remember: Back-to-school shopping is supposed to be fun! It’s a-okay if they see something they are dying to have (if you are okay with them bringing it)! If NOT, use us as an excuse and say your teachers did not say you need it. 😊

In the classroom, students will use devices responsibly and only with the permission and direction of the teacher or other staff members. Of course, technology alone will not improve learning – but when combined with the right instruction from skilled staff, amazing things can happen!

Students can bring their own devices to school for educational purposes, but it is not required. We have several devices at school designated for student use, but some families may prefer to provide their own. Chromebooks are recommended for students who bring their own device.
